Fixed Price: **1,950 EUR**

Including additional charges and excluding tax.
Contents of package may be subject to change.

SAP Partner

SAP® Certified
in Run SAP Implementation

REALTECH consulting

:Your Requirements

Their daily routines are often forcing users to rely on a large number of applications – Microsoft Outlook, Excel, Word, SAP applications, websites and many more. This requires users to familiarize themselves with the various menus and functionalities. The seamless integration of SAP processes and collaboration processes in Microsoft Office SharePoint Server (MOSS) remedies this problem. Thanks to its close integration with Microsoft Office applications, MOSS delivers better usability, improves processing times, and reduces the number of communication interfaces. This leads to a reduction in process costs.

Microsoft Office SharePoint Server is the perfect complement to Enterprise Content Management and collaboration in SAP NetWeaver environments.

Moreover, the use of MOSS and other Microsoft products in the field of collaboration opens up many new opportunities with respect to Web 2.0 and social networking.

Tap into the opportunities offered by MOSS. Join us for a one-day workshop during which we will familiarize you with the individual features of Microsoft Office SharePoint Server and show you how it can be integrated into a SAP system landscape with SAP NetWeaver Portal and backend systems, for example SAP ERP.

We will help you get a better understanding of SAP's roadmap and strategic direction regarding its content management, knowledge management, and collaboration functionalities.

Consulting Package

Integration MOSS and SAP NetWeaver

:What to expect

- A comparison between SAP NetWeaver and Microsoft .Net
- An overview of the applications, limits, and challenges of an integration
- An overview of possible integration and solution scenarios in the SAP standard and by means of third-party applications, illustrated by practical examples
- A closer look at development perspectives and a preview of SAP's strategy
