:Your Requirements

Once a neglected stepchild used only for the download of service packs and the generation of license keys, more and more SAP customers are now discovering the added value of SAP Solution Manager and its features. But what is really of value to you and where should you start?

In this workshop, REALTECH will assist you in assessing and evaluating the true value of SAP Solution Manager to your company.

This workshop was developed with the requirements of IT managers and key players in the business departments in mind. Based on your IT processes, we will investigate the opportunities associated with the use of SAP Solution Manager and uncover the potential for optimization in your company. Working with our experts, you will discuss solution approaches and possible applications of SAP Solution Manager.

As a result of this workshop, you will be given a detailed analysis of the benefits of SAP Solution Manager in comparison with the solutions you are currently using. Furthermore, we will present the processes compiled during the workshop and provide you with a roadmap for the introduction of possible Solution Manager scenarios.
